What our Tenants are **SAYING?**

I have been renting a property from 3G Properties for almost 2 years now. Renting a property from 3G Properties has by far been the best renting experience I have ever had. They were able to find a rental property for me and my family that was everything we were looking for. Their staff is both professional and friendly. They are also very quick to follow up on any maintenance requests, questions or concerns that I have. Overall, I would recommend 3G Properties to anyone who is looking to rent a home.

We needed to rent temporarily while building our home. As investment property owners ourselves, we have experience with property management companies. My husband and I are both impressed with the level of service provided by 3G Properties. From the execution of the lease to the move-in, the process was seamless. The staff of 3G has promptly answered calls and texts for service, and has gone above and beyond the call of duty to accommodate any special requests. They serve as an excellent liason between tenant and owner and have worked very hard to find creative solutions that have resulted in a "win" for both parties. They are not only responsive and efficient, they are courteous and friendly... a pleasure to work with.

Your team really makes this process extremely easy on us as tenants and I'd like to think I have a lot of renting experience (this is the 42nd house that I have lived in in my life).

3G Properties has made our leasing experience a very comfortable and easy one. 3G does not make me feel like a "renter" in someone else's home. Marye and 3G have made us feel this is our home and they are here to help us. They are quick to respond to any maintenance needs we have and follow up with everything in a timely and professional manner. If we were ever to lease a home again I would specifically look for one that was managed by 3G Properties. They have made everything very positive and pleasant.
